

## Pharmacy Benefits Update: Healthfirst Medicaid Managed Care and Personal Wellness Plan Members

### Medicaid Managed Care and Personal Wellness Plan members:

This is an important notice about your plan benefits. **The way that you get your pharmacy benefits is NOT changing on May 1, 2021.**

You may have recently received a letter telling you that the way you get your pharmacy benefits would change. **New York State has decided that this change will no longer happen. Therefore, you will continue to get your pharmacy benefits from Healthfirst after April 30, 2021.**

Healthfirst will be continuing to provide this benefit to you. The way that your pharmacy benefits are described in your current handbook is correct and does not need to be changed.

### Healthfirst is here for you

If you have questions about your pharmacy benefit, or any other letters you have received from us, please call us at the Member Services number on the back of your Healthfirst Member ID card.
