Example of how dental benefits work for Pro plans

Your son or daughter is covered under your Pro Gold plan. During their yearly dental checkup and cleaning, the dentist needs to take X-rays. The plan has a medical deductible of $0, so you pay only a $25 copay for the exam and cleaning and an additional $25 copay for the X-rays.

Health insurance terms you should know:

**DEDUCTIBLE** – The total annual amount you must pay before your plan will begin to pay for covered services. (Please note that your plan will always pay for services marked “deductible does not apply.”)

**COPAY** – The fixed amount you will pay for a covered service after you have met your deductible.

**COINSURANCE** – The percentage of cost that you will pay for a covered service after you have met your deductible.
